OUR CUSTOMERS SAVE TIME AND MONEY EVERYWHERE

BECAUSE THEY CAN MAKE PROFITABLE DECISIONS QUICKLY!

Technology such as job costing, drawing and time tracking software can all deliver enormous results to your business. But often the hardest part is knowing how to use these applications to their best advantage.

We bring you the products, the support services and the know-how to make sure you have the right tools in place, being used the right way. At 4 Views we want you to make the most of technology, starting in the front office, and all the way through production.

SOFTWARE PRODUCTS

Our estimating, job costing and scheduling software is the only solution to support lean business for over 15 years with one thousand happy users worldwide. Adopting lean manufacturing principles is the only way to eliminate wastes in time, money, inventory and resources. Plus best of all "lean" works for every one - estimate up to 10 times faster!

NEW!

4Views along with TradeSoft partners with PlanSwift to offer you the #1 Digital Takeoff software.

SETOUT SUPPORT

We support your setout department to save you time in production. We can turbo charge your staff and even take on your setout work. Setout resources are extremely difficult to find so we take your existing staff to a whole new productivity level by showing them not just how to draw, but how to become a key member of your production team.

Learn more about supporting your setout department…

Because the right technology used the right way saves time, saves money and makes money.
