

## What Global Customers Say

About TradeSoft Estimating, Job Tracking, Job Costing and Scheduling

"ProjectPAK has been integral to our growth. I spend about 40% of my time bidding and I have been consistently bidding \$1.5-\$2 million per month. Previously, I would be lucky to bid \$1 million per month... and that's bidding 100% of my entire time. For example, I recently won a job by being able to break item out by level and change different materials as specs changed on the bid documents. It was a seven figure job that took me a couple days to handle... sort of the perfect storm job for ProjectPAK."

Doug Chisholm - Chisholm Architectural  
Millwork - Indianapolis, IN:

"I continue to learn and modify ProjectPAK and really like it. As you know, my wife estimates for me and she LOVES her ProjectPAK!! She says it's faster. The CabinetVision Link is also working very well! I love the new enhancements and I very much appreciate how you respond to our needs, wants and desires. It is a pleasure doing business with TradeSoft!"

David Franks - Fadco, Inc. - Tulsa, OK

"Before ProjectPAK, I'd bid 15-25 jobs a month totaling \$750,000. Now, I routinely bid 60 - 80 jobs totaling 2-3 million. It not only allows me to be more selective in choosing the jobs that make money, my accuracy is dead on."

Glenn Stevens - Woodwrights, Inc. -  
Bridgeport, CT

"TradeSoft is a wonderful company with a wonderful product and beyond exceptional support.."

Aja Burch - The Millwork Specialist-  
Richmond, VA

"With ProjectPAK, what used to take me an hour to do by hand, I now do in ten minutes. What's even better, I can quickly send the same quote to multiple contractors with the touch of a button."

James Mekeel - Northwest Woodworks, Inc. -  
Woodinville, WA

"ProjectPAK saved us from hiring another person. We create an estimate in half the time as we used to and the documents we produce create a professional image."

Sharon Bollock - Bollock Industries -  
Lafayette, IN

"ProjectPAK is a big improvement over our old system. It has certainly standardized the process. An unexpected benefit is how easy it is to refresh ongoing estimates with our latest costs. In the first six months, I've seen an improvement to our bottom line equal to 10 times my investment in ProjectPAK."

Tony Hanslin - Yankee Barn Homes - Granthame,  
NH

"Quotes that used to take 45 minutes now only take 5 minutes! Customers can't believe how quickly I can respond."

Ed Vickery - California Woodworking - Oxnard,  
CA
