

## 4 Views Service and Support

4 Views' service and support gets a great wrap!

"I have been very happy with the support received from 4 Views. The online training was very good and I also used a little one-on-one support to get going even though the software is pretty self explanatory. 4 Views always jumps on any problems right away and responses that need contact with the US come back with fast solutions too."

Beau  
Harris, Manager - Precision Kitchens

"Michel is always happy to help and responds promptly. I like that he can link up to my machine and show me exactly how to get through something I don't quite understand. I really like the online training. Receiving instruction bit by bit meant that I could digest the information and use it before moving on."

Scott  
Hawley, Estimator - Base Interiors

"I haven't needed a lot of support, but the 3 or 4 times I have called Michael over the past year I have always got the answer I needed."

John  
Rickatson, General Manager - Select Products National

"Anytime I have contacted Michael with a problem I have always received a quick and accurate response. The automated and online training

worked well and I learnt a lot from the informal one-on-one time I was able to have.”

Marc  
Rigby, Projects Co-ordinator - Bella Design Joinery

“4 Views always provide excellent support when needed, in fact Michael is here today. The training was very good and the teleconferences and online tutorials have been really useful as a reference to our business.”

Karen  
Budd-Anderson, General Manager - Budget Shopfitters

“The training provided by 4 Views was very good and I agree with the stage by stage approach. Overall the support I have received and the response time to questions have been great.”

Steven  
Dal Molin, Projects Co-ordinator - Civardi  
Furniture

“We really liked the online tutorials as they have become a reference tool if we need to clarify a part of the system after training.”

Ali  
Mahmoud, Owner - Rest Interior
