

PlanSwift

Content on this page requires a newer version of Adobe Flash Player.

4Views along with TradeSoft has partnered with PlanSwift to offer you the #1 Digital Takeoff software. Quickly take off your plans and then transfer the information into ProjectPAK; all from your computer screen!

If you can do a takeoff by hand, you can do it in PlanSwift. Tap into Digital Plan Rooms, have the plans emailed to you, or scan in your paper copy. PlanSwift supports the following formats:

- .TIF, .TIFF (Tagged Image Format File)
- .PDF (Acrobat Portable Document Format)
- .DXF (AutoCAD Drawing Interchange Format)
- .DWF (Autodesk Design Web Format)
- .DWG (AutoCAD Drawing Database)
- .PLN (Dodge Plan File)
- .JPG, JPEG (Joint Photographic Experts Group image)
- .CPC (Cartesian Products Compressed Internet Document)
- .OSX
- .DJVU
- .CAL

Organize your take off just like you will enter it in ProjectPAK .

PlanSwift uses a color coding system to instantly identify items you've counted. As you count it automatically keeps a running total of each item in the materials list. When you're finished, you'll know precisely how many items you need because they are all color-coded and accounted for.

Digital Takeoff software that actually works and is affordable! Please click the link below to start your 14-day free trial.
